TC 1700

RESPONSE

In response to the Office Action dated September 13, 2001, Applicants respond as follows:

In the Claims:

90. (Amended) A method of repeatedly measuring a known volume of a fluid in a miniature fluidic system, comprising:

providing a microfabricated device having at least first and second chambers disposed therein, wherein said at least first and second chambers are in fluid connection, each comprise at least one vent port, and wherein at least one of said chambers is a volumetric chamber having a known volume;

filling said volumetric chamber with said fluid to create a first aliquot of said fluid;

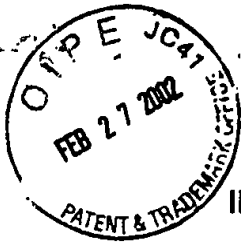

transporting said first aliquot of said fluid to said at least second chamber; and

repeating said filling and transporting steps by applying pressure from an external source.

Please enter the following new claims:

Sub c 2 -92. A method of measuring and processing a known volume of a fluid in a miniature fluidic system for integrated nucleic acid analysis, comprising the acts of:

A' providing a microfabricated device having at least first and second chambers disposed therein, said at least first and second chambers including at least one vent port and at least one of said chambers being a volumetric chamber having a known volume;
